PROFILE

As an accomplished and driven Back-end Web Developer, I bring to the table a wealth of expertise in Django backend development and proficient knowledge of front-end technologies such as HTML, CSS, and JavaScript. Alongside this, I have a background in marketing data analysis, which further bolsters my capabilities. My portfolio boasts over 3 years of experience, during which I have delivered 8 high-performance applications, including a hotel chain management system. I am dedicated to delivering superior web development services to my clients and always strive to exceed expectations.

WORK EXPERIENCE

• Full-Stack Web Developer, Freelance 2020 - PRESENT

As a Freelance Full-Stack Web Developer, I provided web development services to various clients, including designing and developing websites, creating e-commerce platforms, and building custom web applications. I worked independently and managed multiple projects simultaneously, ensuring timely delivery of high-quality work that met the client's needs and expectations.

• Full-Stack Web Developer, Easy Touch Company 2019 - 2021

As a Full-Stack Web Developer, my responsibilities included developing and maintaining the company's website, as well as designing and implementing new features to enhance the user experience. I worked collaboratively with the team to ensure that the website was secure, scalable, and optimized for performance.

• Experienced University Teacher, Modarby & Other Platforms 2019 -Present
